

AREF MOUSAVI

Computer Vision Engineer | AI Engineer | Flutter Developer

Ahvaz, Iran | Open to Relocation & Remote | +98 992 593 3383 | aref.mousavi0914@gmail.com | github.com/triborg34 | linkedin.com/in/arefmousavi

PROFESSIONAL SUMMARY

Computer Vision Engineer with 19 months of experience developing and deploying production-grade AI systems. Specialized in **Python, OpenCV, YOLO, PyTorch and InsightFace**. Built a Persian ANPR system with **95% accuracy** processing **4 cameras simultaneously** and a Face Recognition system deployed at **Tehran Mehrabad Airport** and Khuzestan Standards Office. Full-stack capability with **FastAPI + Uvicorn** and **Flutter (Web/Mobile)** for AI interfaces. Proven ability to deliver **7-9 projects independently** while reducing operational costs by handling AI development, CCTV infrastructure and passive networking (MikroTik, Ubiquiti).

WORK EXPERIENCE

Technical Engineer - Computer Vision & Infrastructure

Aman Afarin Ayandeh Pajouh | Ahvaz, Iran | Jul 2024 - Present (19 months)

- Developed **Persian ANPR Engine** (FastAPI, Uvicorn, YOLO, OpenCV) with **95% accuracy**, capable of real-time processing from **4 IP/Analog cameras** simultaneously; integrated with barriers and alarm systems.
- Developed **Face Recognition System** using **YOLO + InsightFace (PyTorch)**, deployed at **Tehran Mehrabad Airport** and **Khuzestan Standards Administration**.
- Deployed and operationalized AI systems for **5 organizations**: South-East Water Co., National Iranian South Oil Co. (NISOC), Dez Dam (Andimeshk), Gas Company Housing, Bank Saderat.
- Installed, configured and maintained all types of **CCTV (IP/Analog)** and executed **passive network** infrastructure (cabling, rack, switch, MikroTik, Ubiquiti).
- Managed end-to-end **DevOps** with **Docker, Git/GitHub, Linux**, independently delivering **7-9 projects** and significantly reducing outsourcing costs.

Technical Department Manager - Console Division

Nexusdigital Store | Ahvaz, Iran | Sep 2017 - Apr 2024 (6.5 years) - Sole Manager

- Solely managed technical department; performed **advanced hardware & software troubleshooting** for gaming consoles (PS4, PS5, Xbox) and laptops.
- Designed and maintained **e-commerce website from scratch** using **WordPress**, including **SEO optimization** and continuous content updates, driving online sales.

KEY PROJECTS - PRODUCTION DEPLOYED

Persian ANPR Engine - Automatic Number Plate Recognition

github.com/triborg34/Persian-Anpr-Engine | FastAPI, Uvicorn, YOLO, OpenCV, Flutter (Web)

- Persian plate detection (normal & Arvand plates) with barrier/alarm integration; multi-user server deployment.

Face Recognition System - Real-time Identification

github.com/triborg34/Face-Recognition-Ui | YOLO, InsightFace, PyTorch, OpenCV, FastAPI, Flutter

- Real-time face detection & recognition; deployed at **Mehrabad Airport (Tehran)** and **Khuzestan Standards Office** with Flutter UI.

TECHNICAL SKILLS

AI & Computer Vision	Python (Advanced), OpenCV, YOLO, PyTorch, InsightFace
Backend & Databases	FastAPI, Uvicorn (Advanced) - Flask, RESTful API, PocketBase, SQL (Familiar)
Mobile & Frontend	Flutter, Dart (Advanced) - Web interfaces for AI systems
Network & Infra	Passive Network, CCTV (IP/Analog), MikroTik, Ubiquiti, Switch, Rack, Cabling
DevOps & Tools	Docker, Git, GitHub (Daily), Linux, WordPress - CI/CD familiar

EDUCATION & LANGUAGES

Associate Degree in Mechanical Engineering

Shahid Chamran University of Ahvaz - 2016 - 2020 | GPA: 14/20

Languages

Persian: Native

English: Professional Working Proficiency

Arabic: Familiar
